REAL ESTATE OPPORTUNITIES

HOW MANY HOMES WILL THERE BE AT BLACKBERRY MOUNTAIN?

95 lots have been created at Blackberry Mountain, and there are no current plans to add more. For sake of comparison, 78 total lots exist at Blackberry Farm.

WILL THE VIEWS BE PROTECTED IN THE FUTURE?

The owners of Blackberry Mountain have been acquiring land surrounding Blackberry Farm and Blackberry Mountain for 40+ years, with extensive use of conservation easements to protect views in perpetuity. In fact, Blackberry Mountain was originally acquired to protect the view from Blackberry Farm. Although we don't control all lands in the vast panoramic viewshed of Blackberry Mountain, the owners have a long history of acquiring lands that may provide a threat to the resort community viewshed.

WHAT TYPES OF REAL ESTATE OPPORTUNITIES ARE AVAILABLE?

Several neighborhoods exist at Blackberry Mountain. The neighborhoods include:

AZALEA GAP – 23 higher density lots (~0.25-0.8 acres) walking distance to the Lodge and Hub amenities, where owners can build one of our floor plans or a custom home of up to 3,500 SF. Lots C1-C9 are eligible for rental program, others are not.

MID-MOUNTAIN – 28 mid-sized, medium density lots (~1.0 - 3.5 acres) located in the vicinity of The Lodge and Hub facilities. The first two rows of lots above the Lodge (Lots 4-11 only) are eligible for 3-5 bedroom homes on the rental program. The remaining lots may contain up to 5-bedroom homes based upon the individual lot characteristics.

LAVERACK RIDGE – 13 mid-sized, medium density lots (~1.0 - 3.5 acres) located uphill of The Lodge and Hub facilities with enhanced privacy and nice views. Not eligible for rental program.

MOUNTAIN HOMESTEADS – 31 low-density lots, sized ~4 to 40 acres each, located in higher elevations. Opportunity for a guest house. Larger lot sizes with more privacy typically enables more view clearing and more flexible architectural guidelines, from traditional mountain to contemporary architecture, subject to ARC approval. Not eligible for rental program.

CAN I RENT MY PROPERTY?

Only Lots C1-C9 in Azalea Gap and 4-11 in the Mid-Mountain homes are candidates to participate in the resort rental program. Rental option must be verified prior to purchase and should never be assumed.

IS THERE A TIMELINE REQUIRED TO START BUILDING ON HOME SITES?

No. Private Owners may initiate the building process at their discretion upon obtaining the required ARC approvals.

IF I'M CONSIDERING BOTH BLACKBERRY FARM AND BLACKBERRY MOUNTAIN, ARE MORE PRIVATE NEIGHBORHOODS PLANNED AT BLACKBERRY FARM?

No. All remaining land "inside the white fences" at Blackberry Farm that is not privately owned is either dedicated to resort use or placed in permanent conservation easement. Since all original lots have been sold at both the Farm and the Mountain, any future opportunities at either property would be resales by existing private owners through the Blackberry Farm Real Estate brokerage. Owners are not legally required to resell via our brokerage, but to date all have chosen to do so.

FINANCIAL

WHAT ARE THE FEES AND COSTS OF OWNERSHIP, AND WHAT DO THEY COVER?

Private Owners in Blackberry Mountain will pay two types of dues/fees:

1. OWNERS ASSOCIATION FEES

COA fees in 2024 range from \$1,682 to \$3,549. COA fees cover maintenance of entry landscape and roads, insurance and property tax on the common elements, legal and accounting fees, certain community utilities and a replacement reserve.

2. CLUB MEMBERSHIP COSTS

a. Initiation fee

- i. Required with property purchase
- ii. \$150,000 one-time fee
- iii. 100% refundable less a \$30,000 administration fee

b. Club Dues

- i. \$12,500 per year in 2024
- ii. Provides access to all amenities at Blackberry Mountain resort and all benefits and privileges of membership (detailed further below)

WHAT ARE THE APPROXIMATE CLOSING COSTS?

Closing costs of approximately \$5,500-\$30,000 are typical depending upon property price (there is a wide range in pricing). These costs includes Blount County transfer taxes (0.37% of purchase historically), title insurance premiums, closing attorney's fees. In addition, such items as club dues, COA dues and property taxes will be prorated based upon the date of closing. These estimated closing costs do not include financing costs.

WHAT ARE THE PROPERTY TAXES?

In 2024 Blount County real property tax is assessed at 0.3975% of the property value as per the Blount County property assessor's appraisal. Blount County typically reassesses property every four years (next reassessment will be in 2027), upon resale, or after home completion/renovation.

COMMUNITY STRUCTURE & GOVERNANCE

WHAT IS THE LEGAL FORM OF OWNERSHIP OF THE REAL ESTATE?

Like most neighborhoods at Blackberry Farm, Blackberry Mountain property will be owned in condominium format. The primary reasons for the condominium format are twofold. First, it enables a more sensitive approach to land disturbance and intimate road lanes in keeping with the subtle character of the property's vision. Blount County subdivision road regulations would have required more grading and tree removal to accommodate wider roads. Second, subdivisions require access from a public road. The owners prefer private road access.

In this format, Private Owners own the "air rights" above the home site and exclusive use of grounds within their lot, as well the home itself. Each home site (lot) is a unit in the condominium. Each unit/home site is deeded property, and is financeable like other real property. Each unit will have surveyed corner markings so owners know exactly where their property begins/ends.

WHO OWNS, CONTROLS AND MAINTAINS THE ROADS AND INFRASTRUCTURE?

Main access roads and other central areas of the community such as entrances, Three Sisters Road, community well sites and the resort buildings are deeded in a commercial condominium controlled by Blackberry Mountain Club, LLC (an entity owned by Blackberry Farm, LLC). Private owners have deeded access to such main roads and infrastructure to access and service their unit by permanent easement. The community infrastructure has been completed, and all unit owners (including resort operator) will share in the cost of maintenance of main roads and infrastructure.

Separately, the residential condominium (“Blackberry Mountain Residential Condominium Owners Association, Inc.”) owns/controls all residential streets and infrastructure as Common Elements of the condominium. Each street is a separate Limited Common Element of the Association, pays for the costs of maintaining roads and infrastructure on that street, and has a separate replacement reserve account. Association control has been turned over to Private Owners via an elected Board of Directors.

CONSTRUCTION

WHAT IS THE RECOMMENDED PROCESS TO BUILD?

Because our private owners hail from many states we have assembled an experienced, proven Design Build Team to make it easy to build from afar. Our Design Build Team consists of multiple excellent builders and architects, and Blackberry Farm Design (interior design). Our Design Build Team is responsible for the majority of homes at Blackberry Farm and Mountain since 2009. Blackberry Development Company can help future owners determine the best way to proceed (utilizing our Design Build Team if desired) based upon factors such as timing, budget and individual Private Owners' needs and preferences.

DO I HAVE TO USE THE DESIGN BUILD TEAM?

No. Owners may utilize their own builder and architect subject to Architectural Review Committee (ARC) approval. Owners do not need ARC approval to utilize their own interior designer. For homes in locations that qualify for the rental program, owners wishing to be on the rental program must utilize Blackberry Farm Design.

HOW LONG DOES IT TAKE TO BUILD A HOME?

Blackberry Development Company-designed home plans have been constructed and fully furnished in as little as 11-12 months after ground breaking. Custom designs and larger homes will take longer, typically 15-24 months depending upon the size and details.

WHAT DOES IT COST TO BUILD A HOME?

Typical building costs have recently been \$650-\$900+ per gross square foot including hardscape and landscaping, but not including furnishings or architect fee (typically 5%-12%). Site features such as steeper slope or longer /steeper driveways, as well as owners' selections on materials and finish levels, and additions such as pools or elaborate hardscape will result in higher building costs. We recommend owners connect with our development team for the latest insights on building in advance of selecting an architect or builder. Interior design and furnishing budgets can be tailored to each owner's needs using Blackberry Farm Design, or owners may utilize an external interior designer if preferred.

ARE THERE ALREADY BLACKBERRY-ENDORSED CONCEPTUAL HOME PLANS?

Yes. Owners have the ability to customize our conceptual plans in several ways, such as adding a wine cellar, substituting a closet for a powder room, etc.

CAN I BUILD ANY HOME PLAN I CHOOSE ON ANY LOT?

No. Each home must be designed in a manner most suited to the topography of the home site, and with respect to other owners in the neighborhood. Certain plans may work better for specific lots. Blackberry Development Company can advise prospective owners on such home planning matters with the assistance of the Design Build Team (or your selected vendors) if desired.

WHO HAS FINAL AUTHORITY OVER WHAT A PRIVATE OWNER CAN BUILD?

All home design and building process approval rests with the Architectural Review Committee (“ARC”) of Blackberry Development Company, which consists of Kreis Beall (Blackberry Farm), Tyler Congleton (Blackberry Development Company/ Blackberry Farm Real Estate), Matt Wilcoxon (Blackberry Farm), Brad Lafoy (Blackberry Mountain), Christine Carney (Blackberry Design) and their consultants. The ARC utilizes the systematic review and approval process outlined in the Design Guidelines that are provided as an Exhibit to Purchase Agreements. The Design Guidelines are available for review, and are similar to those at other high-end resort communities. Decisions are made based upon what is in the best interests of the owners, the neighborhood and the Blackberry Mountain community.

CAN I DESIGN MY OWN HOME?

Yes, utilizing a licensed architect approved by the ARC. All home designs, including custom homes, must conform to the Design Guidelines and be approved by the Architectural Review Committee.

WILL THE HOMES BE CONSTRUCTED ACCORDING TO ENVIRONMENTALLY SENSITIVE (GREEN) STANDARDS?

Blackberry Development Company is committed to green building practices that minimize water and energy consumption, reduce operating costs to homeowners and utilize indigenous materials and plantings. As examples, maximum efficiency heating, ventilation and air conditioning systems may be installed, low flow plumbing fixtures and tankless water heaters may be utilized, and within each of the homes the attic and crawl spaces may be encapsulated. These and other energy-saving steps will substantially reduce both energy consumption and monthly operating costs to homeowners.

On the exteriors of the homes, native Tennessee stone and indigenous plants may be used to ensure harmonious integration of the homes into the setting. Soaker irrigation systems (sourced from an on-site well) and rain sensors can be incorporated into the landscaping to reduce water consumption.

IF I PURCHASE AN EXISTING HOME, CAN I ALTER OR RENOVATE IT?

Yes, however, any changes affecting the exterior of the homes will require prior approval by the Architectural Review Committee.

ARE THERE ANY RESTRICTIONS THAT COULD AFFECT MY ABILITY TO RESELL MY PROPERTY IN THE FUTURE?

Blackberry Mountain Club, LLC, or its assigns will have a right of first refusal to acquire your home site or home at your then market contract price (Blackberry entities do not set or dictate market pricing). The first right of refusal does not apply to interfamily transfers. The acquirer must also be approved for Club membership.

PROPERTY MANAGEMENT

WHO WILL MANAGE MY HOME?

Private Owners will have the option of managing their home, or the home may be partially or fully managed by Blackberry Mountain. As a condition of closing, the contract will require the Seller to provide evidence of marketable title via a title insurance policy commitment from a reputable title company. Prospective purchasers must also apply via the Club Membership Application & Profile and be approved in writing for membership in the Blackberry Mountain Club in advance of closing. As is typical for private clubs, membership acceptance is discretionary per the club membership plan, and approval cannot be assumed as automatic. Contracts are not usually contingent upon financing, although a buyer is welcome to use bank/mortgage financing to acquire a property.

HOW NEGOTIABLE ARE LIST PRICES?

Blackberry Farm Real Estate, LLC has always recommended a fixed, non-negotiable list price. Since 2010, all transactions have occurred at the list price. Yes, however, a separate buyer-representation agreement between the buyer and that party would be required to determine compensation for any services provided.
